

HOW DID WE GET THE BIBLE?

God, who made the universe, wrote His book through a wide variety of different people.

When it was finished, it was one book made of 66 little books, written by about 40 different people, over a period of about 1,600 years.

Some of the people who wrote it include a king, a fisherman, a tax collector, a tent-maker, a shepherd, an ex-Pharisee and others. The amazing thing about this is that, even though all these different people added their bit to the book, none of them disagreed, or contradicted any of the others!

HOW DO WE KNOW THE BIBLE IS TRUSTWORTHY?

1. Not one mistake has ever been found in its pages, that is in the original language it was written - Hebrew or Greek.
2. It has many predictions, or prophecies, which were made hundreds of years before the events, and every prediction was fulfilled exactly and precisely!
