

Let's Make And Learn!

GOD FORGIVES BALLOONS

What You Need:

Small pieces of paper
Balloons

Black marker
Pencils or pens

How To Make It:

1. Discuss the idea of God's forgiveness. Have each child think of something for which they would like God to forgive them. Allow them time to write their thoughts on the small pieces of paper, folding them into tight squares. Then explain that when God forgives us, He forgets what we've done wrong, as though it never happened.
2. Each child will select a balloon and put the note inside.
3. The children will then inflate the balloons and tie a knot in the bottom of each so that the air will not escape.
4. Use the marker to write "GOD FORGIVES" on one side of each balloon. On the other side, print the Bible verse for this lesson.
5. Have prayer so the children can silently ask God to forgive them. Then have the children release their balloons and let them drift away.

If provision can be made for the balloons to be filled with helium, the balloons will float up, up, and away much more successfully!
