

God and humans

When God created humans, he made them a little bit like Himself. Can you think of ways in which you are like God?

1. God can speak - so can you.

God spoke to Adam and eve, and king Solomon, and many other people in the Bible,

2. God can think - so can you.

God is really smart. He is so wise He can work out how to make a solar system, and a universe, and an earth, and life.

3. God can write - so can you (I hope!)

God helped people write the Bible. He made sure that not a single mistake was made.

4. God can be creative - so can you.

Just as God has made many beautiful things, you can too - even if it is something like arranging flowers, or planting a garden.

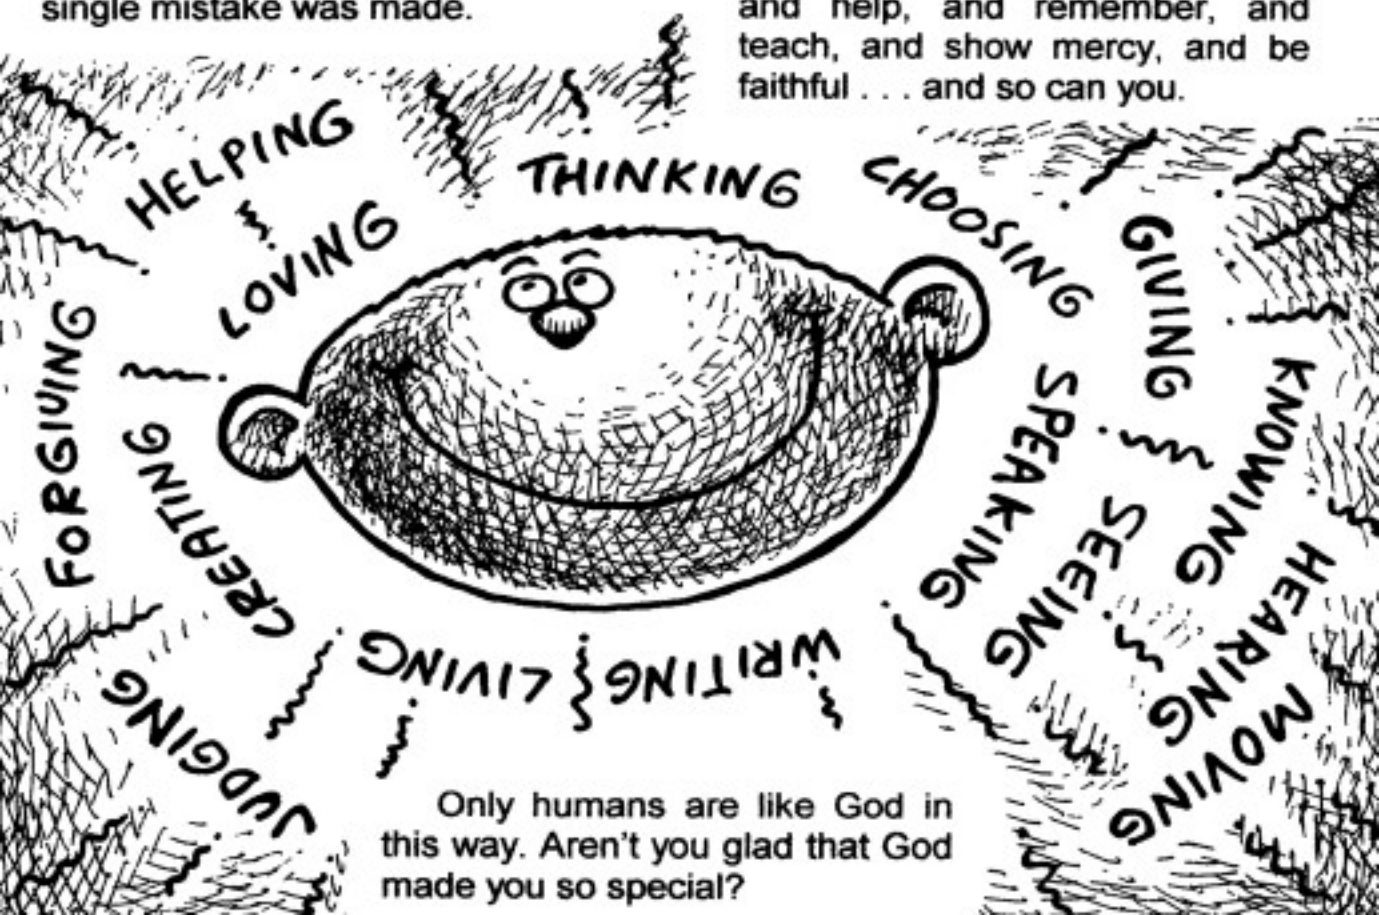

5. God can choose - so can you.

God chose to make this world. You can choose many things too - like whether to obey someone or not.

6. God can love - so can you.

Do you love someone, or a pet. Your love is a gift which God put inside you.

7. God can do many other things. He can judge, and forgive, and help, and remember, and teach, and show mercy, and be faithful . . . and so can you.

Only humans are like God in this way. Aren't you glad that God made you so special?
