

# The Way Home

The Prodigal Son left home to find a good time. But instead, he ended up eating with the pigs. He then decided to return home to be hired as his father's servant. His father, though, welcomed his long-awaited son home — not as a servant, but as part of the family. Mark the way taken by the Prodigal Son in the maze below. (Note: The Prodigal Son returned home a different route than when he left.)
